

# Quick-Start Guide for Cincinnati Bell Windows Mobile SmartPhones

This Quick-Start Guide gives you instructions for installing and removing the TeleNav GPS Navigator application. For detailed instructions including how to run TeleNav GPS Navigator for the first time, please consult the TeleNav User's Guide.

## Installing TeleNav GPS Navigator v5.2

TeleNav GPS Navigator can be installed on your Windows Mobile device by using the device's Internet browser and downloading the application directly to your handset over the air (OTA)

1. Click the **Start** menu and choose "Internet Explorer."

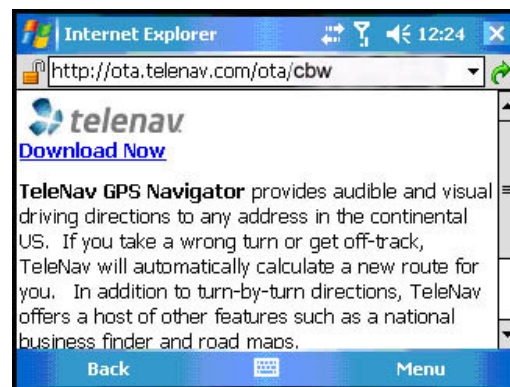

2. Enter the following URL:

- TeleNav GPS Navigator (requires a subscription):  
<http://ota.telenav.com/ota/cbw>

3. Click the **GO** arrow to the right of the URL entry form.

4. A page will appear describing the features of TeleNav GPS Navigator. Select the link **Download Now**.
5. The download process will begin immediately, and a warning message will be displayed. Press **YES** to begin the download.

6. After the download process has completed successfully, locate the TeleNav application icon on the applications menu.
7. Select TeleNav, and then complete the registration process using the PIN you received in an SMS message.
8. After the application loads some graphics and sounds it needs, it will be ready for you to use in a normal fashion.

## Removing TeleNav GPS Navigator

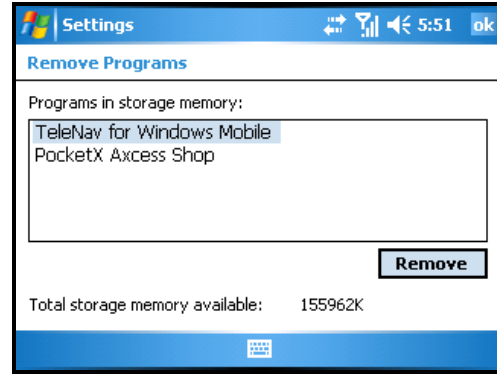

Do the following steps to remove the TeleNav application from your SmartPhone.

1. Go to the Start Menu and choose "Settings."
2. In the System tab, choose "Remove Programs" (you may need to scroll down to see this item).
